## MEDICINAL

The man on the stage who does the trick of escaping from firmly tied ropes, submits to the bonds with a smile. He knows he can get out of the ropes that are being knotted. Put the same man in the woods and let Indian captors bind him to a tree for torture and he would struggle to the last against the bonds.

When the stomach is diseased there are bonds being woven every hour about the organs dependent on the stomach—heart, lungs, liver, kidneys, etc. The folly of mankind is to passively submit to the fastening of these bonds with no effort to escape until the pain they cause arouses fear.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It cures diseases of heart, liver, lungs, kidneys and other organs, when these diseases, as is often the case, have their origin in the diseased stomach.

"For a long time I was suffering and was hardly able to get about," writes Mr. Andrew J. Jennings, of Thomas, Tucker Co., W. Va., Box 54. "Was bothered with kidney trouble and my whole system was out of order; had no appetite. A friend of mine told me to try Dr. Pierce's Golden Medical Discovery. I did so and the first bottle restored my appetite. I took six bottles of 'Golden Medical Discovery' and some of the 'Pleasant Pellets' and feel like a new person."

Dr. Pierce's Pleasant Pellets cleanse the clogged system from impurities.

**THE NEGRO ABROAD.**  
Dr. D. Jonathan Phillips, colored, of Philadelphia, has returned home after having passed the final examination of the Royal College of Surgeons of England and the Royal College of Physicians of London. During his stay of more than five years abroad he visited some of the chief medical centers of the Continent.

"America, after all," he said, "is the best place for the negro, all things considered, not excepting his social standing. While public accommodations abroad may be obtained, it is generally made plain that the negro is not a welcome guest; in some places he is refused on the same plea as in sections of America—that they are filled up." In traveling in public conveyances where passengers have compartments sufficient to seat from three to half a dozen, I often found myself alone, other passengers preferring to crowd elsewhere to coming to a comfortable seat by me. The same conditions prevail on the Continent as in England. Color caste prejudice is in as pronounced a form there as it is to be found anywhere in America. A lynching is as likely to occur in the streets of London whenever a negro is in question, as it is likely to take place in Georgia. Sentiment in Europe toward the negro now is far different from that of a generation ago. A case in point I witnessed in London. There happened to be a murder committed by a colored sailor in the toughest part of London where murder is a daily occurrence; yet when this negro murdered a white man, the papers made a sensation of it and kept it up for days. Such is the public sentiment against the negro. I believe if there were as many negroes in England as there are in America sentiment would be worse against the negro in Europe than it is toward him in the nearest State in America. The negro is better understood and is as well treated in this country as anywhere else."

**METHODS OF INDUCING SLEEP.**  
Dr. Steiner observed in Java a method employed to induce sleep. It consist in compressing the carotid arteries. The operator sits on the ground behind the patient whose neck he seizes with both hands. The index and middle fingers are then pushed forward into the carotids which are compressed toward the spine. The patient's respiration becomes more rapid and more profound and his head relaxes backward. The method is absolutely harmless, anesthesia is rapidly obtained and the patient wakes promptly with no symptoms of nausea or malaise. Dr. Steiner declares the method to be well known in Java, where it is used to relieve headache, sleeplessness, etc., and points out the fact that the carotid artery was known to the ancients as arteria soporifera, and that its name in modern Russian is "artery of sleep." He does not seem to know that the method is widely practiced in India. Kipling's "Kim," for example, is put to sleep by a process of the sort. Dr. Steiner experimented upon 30 Javanese and was successful in all but five cases. He sat in front of the patient placing his right hand on the left, his left hand on the right side of the patient's neck. When the ends of his fingers met at the back of neck he placed his thumbs back of and a little below the angles of the lower jaw. The beating of the carotid was felt, and then a moderate pressure toward the spine was applied. The loss of consciousness was complete and, in one case, an abscess was lanced without sensation on the patient's part. [New York Sun.]

**DROPPING THE NEGRO.**  
The republican executive committee of Alabama has refused admittance to negro delegates to the State Convention which met at Birmingham today. This action was the result of several hours struggle yesterday between those of the new regime known as the "Lilly Whites" and those not in favor of barring out the negroes. The elimination of the negro was accomplished through the passage of a resolution adopting the report of the subcommittee, which was appointed at the meeting of the full committee on Saturday and which had passed on all credentials presented by delegates throughout the State. When this report was read yesterday not a single negro's name appeared upon it, although the names of negroes were on the list of delegates from more than one county when the credentials were given to the subcommittee. Immediately following a resolution to adopt the report as a whole, there came from several parts of the house protests of a vehement nature. These protests kept coming in so fast that at one time it looked as though the resolution could not be passed. However, the resolution finally was adopted by a vote of 17 to 10.

**METHODS AFTER ROOSEVELT.**  
President Roosevelt was called upon by the Wisconsin Methodist conference at Milwaukee yesterday to refute the report

that he has asked the Vatican at Rome to create Archbishop Ireland a cardinal.

By unanimous vote the conference decided to send the following letter to the President: "We see with pain in press dispatches, a rumor that the Vatican has received from President Roosevelt an intimation that he would be personally pleased to see that Archbishop Ireland is created a cardinal as a reward for the services he has rendered the church and the State. We strongly doubt the correctness of this rumor, for it does not seem possible that the President of the United States could thus violate the spirit of the Constitution of the United States, which requires the complete separation of the church and the State, and we hope to see it authoritatively denied." Bishop D. A. Goodsell, as president of the conference, signed the letter.

**A Certain Cure for Dysentery and Diarrhoea.**  
"Some years ago I was one of a party that intended making a long bicycle trip," says F. L. Taylor, of New Albany, Bradford county, Pa. "I was taken suddenly with diarrhoea, and was about to give up the trip, when editor Ward, of the Laceyville Messenger, suggested that I take a dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy. I purchased a bottle and took two doses, one before starting and one on the route. I made the trip successfully, and never felt any ill effect. Again last summer I was almost completely run down with an attack of dysentery. I bought a bottle of this same remedy, and this time one dose cured me." For sale by Richard Gibson, druggist.
